# Quotes by Gergen, David R.

from QuotationsBook.com

I don't have any problem with a reporter or a news person who says the President is uninformed on this issue or that issue. I don't think any of us would challenge that. I do have a problem with the singular focus on this, as if that's the only standard by which we ought to judge a president. What we learned in the last administration was how little having an encyclopedic grasp of all the facts has to do with governing.

- Gergen, David R.
