Quotes by Keller, Hans

from QuotationsBook.com

Hans Keller (1919-1985) was a musician and writer who made significant contributions to musicology and music criticism, and invented the method of 'Wordless Functional Analysis' (in which a work is analysed in musical sound alone, without any words being heard or read).

I never was an opera fan -- about twenty-five musically supreme masterpieces in this curious medium apart.

- Keller, Hans
