Quotes by Berio, Luciano

from QuotationsBook.com

Lucian of Samosata (c. AD 120 - after 180) was a rhetorician and satirist, writing in the Greek language, noted for his witty and scoffing nature.

Opera once was an important social instrument -- especially in Italy. With Rossini and Verdi people were listening to opera together and having the same catharsis with the same story, the same moral dilemmas. They were holding hands in the darkness. That has gone. Now perhaps they are holding hands watching television.

- Berio, Luciano
